## Enjoy Better Health and a Longer Life - Naturally!

By Boyd Corbett

It's a fact that we are living longer. And that's a good thing. But with our aging population more and more of us, especially our senior citizens, are susceptible to illness. Health issues and the accompanying medical expenses are a major concern for senior citizens. Indeed, health care in general is a national issue.

So wouldn't it be great if we could stay youthful, trim, strong and healthy with unique, natural therapies? Avoid the painful, expensive surgical procedures and costly prescription drugs?

Well, I'm happy to report that, after extensive research through various resources, there ARE alternative methods. Learn how to cleanse and flush your internal organs to avoid many diseases, reduce the risk of heart attacks and strokes, kill infections without drugs, prevent high blood pressure and heart disease, and much, much more.

Now I'm not going to tell you that there is some magical 'snake oil' out there that is a cure-all for everything. That just doesn't exist. And I can't guarantee that any of these alternative

methods will cure what ails you or prevent any disease. I'm not a doctor and no one can guarantee that. But ask yourself, "What if these alternative methods do work?" Aren't they at least worth considering? I have devoted countless hours researching natural healing and prevention information and I am convinced there is credible evidence to support their effectiveness.

There is a vast amount of resource material on this topic, much of which may be available at your local library or bookstore. A common theme of most of this material is that there are natural and alternative methods of dealing with existing and potential health problems. As a few examples, *Your Body Doesn't Lie*, by John Diamond, M.D. and *The People's Pharmacy Guide to Home and Herbal Remedies* by Joe Graedon. And my book, *The Natural Survivor*, provides the names of numerous other books on the topic.

Are you aware that it is now known that the bubonic plague, Black Death, that killed millions in the 14<sup>th</sup> century was a fungus caused by bad bacteria in the colon? Similarly, AIDS may be linked to a fungus. It is critical to flush the internal organs to cleanse the body of bad bacteria that can cause fungus.

Fungi have been causing illness and death for centuries. Open the Bible and read Leviticus 14, verses 34 and 35. You may also want to read a book by Doug A. Kaufmann titled *The Fungus Link*.

Read the referenced material and judge for yourself. You may be pleasantly surprised (maybe even shocked) by what you learn. More importantly, it may lead you on the path to a more healthier you – naturally! Recent research has proved that natural herbal formulas have successfully remedied diseases when chemical prescriptions have faded! But the public has not yet learned those details which are in Boyd Corbett's Survivor Secrets Reports.

*Boyd Corbett is the author of 'The Natural Survivor', a paperback book containing a collection of natural healing and prevention information. Mr. Corbett has recently made some of his research available in individual reports (with full reprint/resale rights) including his 'Amazing Fountain of Youth Discovery' for only \$5.*
