THIS IS YOUR LUCKY DAY! Your financial future just got brighter because you found **LUCKY SQUARES**. You can make "tons" of money just by mailing your own post cards. Your money comes **FAST** since it comes directly to you – not the monitor. *Very important.*

A FLAWLESS CONCEPT. The "miracle" is that you can't lose. When someone picks your squares, you are paid the dollar amount immediately for that square (or squares). They replace you on *their* card – not yours. If not picked, you remain on other members "Squares" card which *they* mail out. You *will* get paid sooner or later. It's a "no brainer". You could be on thousands of cards that *others* are mailing and couldn't stop the money coming in even if you wanted to.

A TESTED & PROVEN SYSTEM! The squares you buy are yours forever on your own control card. The key to your higher future income is mailing your post cards on a steady basis. You have low printing cost and use the low postcard postage rate. Nothing could be easier or more profitable. Make this *your* lucky day by picking your **Lucky Squares** now. See details (over)

Please include your phone number (optional)
in case the monitor needs to contact you.
